

SmalltalkHub

A modern open-source Monticello project management for Smalltalk.

The screenshot shows the SmalltalkHub website interface. At the top left is the SmalltalkHub logo, which consists of a brown cube icon with white lines and the text "Smalltalk Hub". To the right of the logo are navigation links: "Home", "Help", and "News". Further right is a search bar with the placeholder text "Search". On the far right of the top bar is a user profile dropdown menu showing a small profile picture and the name "NicolasPetton".

The main content area is divided into several sections. The top section is a user profile for "Pharo". It features a circular profile picture of a lighthouse on the left. To the right of the picture, the name "Pharo" is displayed in a large, bold font. Below the name is the text "~Pharo" and "Member since: Wed May 09 2012". At the bottom of the profile section is an email address: "✉ board@pharo-project.org".

Below the profile section is a "Recent activity" section. It has a calendar icon with the number "17" and the text "Recent activity". There are two activity entries, each with a small icon of a document with a green checkmark. The first entry reads "Pharo created project Pharo/CoreTools20" and has a yellow timestamp "16/05/2012". The second entry reads "Pharo created project Pharo/Packages20" and has a yellow timestamp "14:02". Below these entries is a blue button labeled "Older events".

To the right of the "Recent activity" section is a "Projects" section. It has a small icon of a folder and the text "Projects". Below this, there are three categories: "PROJECTS", "WATCHED PROJECTS", and "No watched project.".

What?

- ✦ Scaling Monticello repositories (MCZ files are heavy)
- ✦ Modern architecture
- ✦ Appealing User Interface

Pharo assets

- ✦ Zinc HTTP server + Seaside REST handlers
- ✦ MongoDB with the MongoTalk Pharo driver
- ✦ Amber Smalltalk on the client-side with Twitter Bootstrap
