

# [ ESUG Conference 2011 ]

**Monday, August 22 - Friday, August 26**

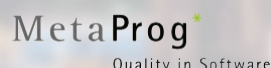

Join Smalltalkers pair-programming at **Camp Smalltalk** on  
**Saturday, August 20 - Sunday, August 21**

The 19th annual International Smalltalk Conference will be in the heart of historic Edinburgh (in festival time!)

The first GUI framework was written in Smalltalk. Smalltalk pioneered high-performance garbage collection. Refactoring began in Smalltalk. Smalltalk's SUnit was the progenitor of JUnit, NUnit, ... - eXtreme Programming began there. Smalltalk inspired Ruby and powers MagLev (concurrent, persistent Ruby). Seaside and Aida are unique web frameworks. Route trains, value insurance, find oil, etch wafers, solve crimes ... and have fun in Smalltalk.

The innovation hasn't stopped! Come to Edinburgh and see practical cutting-edge work in Smalltalk, that most dynamic of languages. Commercial experience reports, academic talks, innovation awards, open mic events, and tutorials, workshops and BoFs for all levels.

An exciting event in a central venue, with great-value rooms and a very affordable conference rate, all in a great location.
